	Examiner Allen C. Ho	Art Unit 2882	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 22 and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Tanaka *et al.* (U. S. Patent No. 6,057,899).

With respect to claim 22, Tanaka *et al.* disclosed an illumination system, comprising: an optical element (103) having a first raster element (109A, 109B), wherein the first raster element has a first aspect ratio, wherein the second raster element has a second aspect ratio, wherein the first aspect ratio is not equal to the second aspect ratio, and wherein the first raster element is completely illuminated in a plane (Fig. 4).

With respect to claim 23, Tanaka *et al.* disclosed an illumination system for radiation wavelengths of ≤ 193 nm, comprising: an optical element (103) having a first raster element (109A, 109B) and a second raster element (109) of different sizes, wherein the first raster element is completely illuminated in a plane (Fig. 4).

Allowable Subject Matter

3. Claims 3-16 and 19-21 are allowed.

4. The following is a statement of reasons for the indication of allowable subject matter:

Art Unit: 2882

With respect to claims 3-19, the reasons for allowance were set forth in the previous office action.

With respect to claim 20, the prior art fails to teach an illumination system comprising an optical element having a first raster element and a second raster element of different aspect ratios, and the illumination system defines a segment of a ring field as claimed.

With respect to claim 21, the prior art fails to teach or fairly suggest an illumination system for radiation wavelengths of ≤ 193 nm comprising an optical element having a first raster element and a second raster element of different sizes, and the illumination system defines a segment of a ring field as claimed.

Response to Arguments

5. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 2882

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
